Designed in London, Crafted in Europe

LUBKOWSKI SAUNDERS & ASSOCIATES
Since 1966

Introduction

Connection has always been at the heart of LSA, harnessing the continuous ebb and flow of people, community and environment. Products designed for people, to enhance shared moments and bring considered, crafted designs into the spaces we inhabit.

In the year ahead LSA will celebrate sixty years of designing for people, reflecting on the journey and knowledge that has led the brand to become what it is today. Those values and expertise will be carried forward, informing the future and ensuring an evolution with the world and people around us.

A collaborative approach to design, craft and people will continue to inspire unique designs, crafted with integrity and with longevity at the heart. Sharing stories and rituals, finding joy with the people and places that ground us.

Our Pillars

HERITAGE

Janusz Lubkowski co-founded LSA International in London, in 1966. In an environment synonymous with cultural and social change, his belief in a diversity of ideas and a passion for contemporary design ensured the company thrived. Monika Lubkowska-Jonas continued to develop her father's vision, designing award-winning products inspired by the way people live. Intuitive and considered designs that value skilled craft and respect the heritage of LSA.

In 2026, LSA will celebrate sixty years of commitment to design and craft. The year also marks a significant evolution in the company's history, as it begins it's next era under new ownership out of the Lubkowski family. LSA will continue to design and create original products for contemporary spaces, with a commitment to provenance, materials and craft. Products designed for people, to bring joy to personal rituals and shared moments.

DESIGN

Our design process is inspired by the way people live. A sustainable approach which goes beyond form and function to create something considered, something of intrinsic value. We design for people with the aim of understanding the purpose and the environment in which our products are used. Thoughtful, considered design.

AWARDS

- 2014, 2017, 2018, 2019 – iF Design Award
- 2016 – DesignPlus Award
- 2016, 2017, 2018, 2021, 2023, 2024 – Good Design Award

Our Pillars

CRAFT

Through the skilled use of hand tools and an understanding of high quality raw materials, our European craftsmen use traditional techniques to transform natural materials into products of intrinsic value.

Every mouth-blown glass piece is finished accordingly using a range of detailed processes. FSC® certified wood is seasoned, then sanded by hand to ensure a smooth finish, whilst porcelain is created using a mix of the latest technology and traditional techniques, all fired twice to ensure durability. Our experience with our primary material, glass, enables us to experiment and push the boundaries of hand production, using the craftsmanship and skill of European producers.

SUSTAINABLE CHOICES

Our intention is to create useful, versatile and relevant products which endure in quality and style. We consider how our products might serve a greater purpose and enhance our environments: improving our surroundings while leaving less of an impact on the earth. By designing lasting, considered products we encourage people to make sustainable choices: buying less and owning for longer. Our collections consider the importance of biophilia, biodiversity and the benefits of biophilic design, exploring how nature has the power to positively impact wellbeing.

We believe in using traditional methods to realise original modern designs. Collaborating with skilled craftsmen for over fifty years allows us to design intuitively to the strengths of each material

New Collections

LSA's Spring/Summer 2026 collection introduces new pieces inspired by the evolving world around us, mirroring the stories created by both the natural world and the people that inhabit it. The natural rhythm and flow of a life lived—from small moments to joyful occasions.

SEA GLASS connects us with the natural world, offering unique drinkware and decorative pieces inspired by the colourful sea glass found scattered on beaches. Mouth-blown with colours from nature, each piece is a reminder of the interplay between craft, materials and cyclical patterns from nature. MODERNE takes inspiration from the Vienna Moderne cultural movement, where creative minds were celebrated and design and architecture were given space to flourish and move in a new direction. New additions to COLLECTIVE utilise materials from nature, with handmade pieces in ash wood and glass. The additions provide pieces for informal occasions, bringing warmth and tactility to familiar moments shared with others.

Drinkware

A comprehensive collection of glasses and serveware for presenting and serving a variety of drinks and cocktails. Modern and inspiring glassware that can be used in a variety of environments. From connoisseur sets and mouth-blown stemware to versatile, award-winning tumblers, our thoughtful, considered designs enhance the spaces in which they are used. All designed and crafted with attention to detail and an appreciation of the material from which they are made.

BORIS

Inspired by the simple geometry of cylinders and circles, BORIS is one of our long-established collections. The pairing of a heavy base with a fine rim is only possible through expert hand production.

WHISKY CLUB

A contemporary collection of cased peat brown whisky drinkware and accessories, mouth blown by master glassblowers. Inspired by the luxurious yet intimate ambience of a members' club, the rich brown glass echoes the colour of peat, used to imbue whisky with a distinctive, smoky flavour. The traditional craft of encasing clear and coloured glass by hand is used to achieve the rich peat colour of WHISKY CLUB.

WINE CULTURE

Our shared experiences increase the diversity of ideas and influence our behaviour, allowing us to engage the senses and appreciate the simple rituals of daily life, arranging the table, dining with friends or pouring a glass of wine. Our interpretation of CULTURE manifests itself in this series of modern, intuitive designs.

Intuitively designed and elegantly proportioned, WINE CULTURE is for the discerning individual who appreciates the subtle nuances of modern design. The bowls of each glass are mouth blown by master craftsmen using the highest quality materials, with hand drawn stems and feet shaped and applied by hand. Culture promotes understanding and takes many forms.

FOLK

Colourful striped carafes inspired by traditional Polish Łowicki fabrics. Solid, coloured glass rods are fused with a gather of clear glass and then mouth blown into a bespoke mould. The skilled, handmade process produces distinctive folk-inspired patterns and organic forms, with no two vessels ever being the same.

Winner 2024 – The Good Design® Award from The Chicago Athenaeum: Museum of Architecture and Design

CANOPY

This award-winning, 100% recycled glass collection was launched in collaboration with educational charity the Eden Project. Centred around hydration and wellbeing, the contemporary drinkware pieces are cylindrical in form with a subtly domed base, inspired by the iconic Eden Project Biomes. To make each piece, locally-sourced, discarded, clear glass jars and bottles are sorted, crushed and heated in the furnace until molten, before being mouth blown by skilled glassblowers.

SEA GLASS

SEA GLASS is inspired by the sea glass found scattered on beaches, in which fragments from discarded, broken glass are smoothed and frosted over time by the waves, salt and sand from the ocean. Mouth blown from 100% locally recycled glass and rolled in coloured glass chips, every piece in the collection is unique. Colours from nature complement the subtle green tint of the recycled glass.

ARC CONTRAST

Introducing stemware and a vibrant new cobalt colourway to ARC CONTRAST, an extension of the award-winning ARC collection. Softly-tapered profiles feature organic colourways drawn from the natural world, with tactile translucent and matte finishes for contrasting light play. Designed to sit comfortably in the hand, with a tonal array to create individual or multi-hued colour stories.

An extension of our ARC Collection, Good Design Award Winner 2023.

Table & Serveware

Modern tableware and serveware handmade from natural materials, lending warmth and modernity to the surroundings in which they sit. There is a careful consideration to how our products can serve a greater purpose than just functionality; they are designed to be used over many years, helping to bring people together as we prepare, host and share dishes.

Mouth-blown glass domes and glass stands with wide plates can be used for presenting cheese, cakes and savoury goods, whilst contemporary porcelain pieces for the table are fired twice for strength, durability and colour.

KONSTANTIN

Designed as a centrepiece, the KONSTANTIN cakestand is mouth-blown and shaped by the most skilled of the master craftsmen. No two pieces are ever the same, yet the quality and scale are maintained to create a unique item.

COLLECTIVE

A mixed-material collection of tableware for different cuisines, uses, environments and occasions. Introducing new additions to COLLECTIVE, with serveware accessories in contemporary forms that offer creative solutions for relaxed dining occasions. New pieces are available in FSC-certified ash and complement and add to the versatility of the collection.

Gently tapered forms with relaxed, low profiles and a soft radius bring a contemporary aesthetic to archetypal tableware.

Porcelain is available in white, deep cobalt blue or dark mocha, referencing the traditional colours of decorated ceramics.

FOLK

Playful curved shapes and bright colours inspired by our Polish heritage. The coloured glass of our FOLK serving pieces draws inspiration from traditional Polish Łowicki fabrics. Solid, coloured glass rods are fused with a gather of clear glass and then mouth blown into a bespoke mould. The skilled, handmade process produces distinctive folk-inspired patterns and organic forms, with no two vessels ever being the same.

**Winner 2024 – The Good Design® Award from
The Chicago Athenaeum: Museum of Architecture and Design.**

TERRAZZA

An award-winning collection of floor and table planters inspired by—and designed for—cultivating and activating spaces with new green life. Mouth-blown vessels with melted rims sit atop powder coated steel columns, creating an elevated platform for growing large indoor plants. The collection is based on the principles of biophilic design, exploring how nature has the power to positively impact individual wellbeing.

Winner 2023 – The Good Design® Award from The Chicago Athenaeum: Museum of Architecture and Design

Biophilic design is the process of integrating nature and natural systems into the built environment to elicit a positive physical and mental response. It uses our connection with nature to create spaces that benefit human health and wellbeing.

BALCONY

A collection of mouth-blown glass planters that borrow their structural, offset shapes from abundant city balconies and agricultural terraced landscapes. The self-watering design for plants, bulbs and herbs uses subirrigation to deliver water directly to the roots of the plant. Each planter in the collection takes its inspiration from biophilic design; a concept centred around our affinity to engage with the natural world.

CANOPY

This award-winning 100% recycled glass collection was launched in collaboration with the educational charity the Eden Project. Self-watering planters, closed gardens and vases are designed according to biophilic principles and feature contemporary domed shapes inspired by the iconic Eden Project Biomes. To make each piece, locally-sourced, discarded, clear jars and bottles are sorted, crushed and heated in the furnace until molten, before being mouth blown by skilled glassblowers.

SEA GLASS

Versatile vases and lanterns form part of the new SEA GLASS collection. Inspired by the sea glass found scattered on beaches, in which fragments from discarded, broken glass are smoothed and frosted over time by the waves, salt and sand from the ocean. Mouth blown from 100% locally recycled glass and rolled in coloured glass chips, every piece in the collection is unique. Colours from nature complement the subtle green tint of the recycled glass.

STRIPE

STRIPE introduces a modern vase collection characterised by monochrome stripes and angular forms. Referencing the mathematical works of Op Artists Bridget Riley and Victor Vasarely, each piece is crafted in a highly-skilled handmade process. Black and white glass rods are heated and applied to the clear glass gather before being mouth blown into bespoke moulds — once finished, no two pieces are ever the same. Available in varying heights and shapes, these vases bring a sense of movement to interiors.

FOLK

Colourful striped vases and decorative objects inspired by traditional Polish Łowicki fabrics. Solid, coloured glass rods are fused with a gather of clear glass and then mouth blown into a bespoke mould. The skilled, handmade process produces distinctive folk-inspired patterns and organic forms, with no two vessels ever being the same.

Winner 2024 – The Good Design® Award from The Chicago Athenaeum: Museum of Architecture and Design.

BEACON

BEACON introduces a modern collection of mixed-material candleholders with a modular design. Conical glass forms with a linear texture hold a powder-coated steel candleholder with low profile and wide rim. The steel component may be removed so the pleated glass vessel can be used separately as a vase and in some cases, as a storm lantern. Available in varying heights, shapes and colours, offering ambient candlelight to table settings and interiors.

VICTORIA

A collection of vases created in tribute to the late florist Victoria Taberer-Bond. A long-standing partner and friend to LSA, Victoria crafted arrangements for editorial shoots, bouquets for the LSA showrooms and presented flowers for events, always lending her passion, astute eye and love for organic colour. Her inspiration came directly from the natural world, with her vivid style challenging uniformity. In her memory, the mouth-blown vases are based on the design of florists' conical metal containers, with the flared or tapered forms and wide flat collars facilitating and encouraging creativity when arranging flowers or foliage. For each VICTORIA vase we sell, we will make a donation to the cancer charity Sarcoma UK in her memory.

Winner 2024 – The Good Design® Award from
The Chicago Athenaeum: Museum of Architecture and Design.

SCULPT

Stacked geometry and angular modern shapes define the SCULPT collection. The carved wooden totems of Constantin Brancusi are referenced in the sculptural outlines of each mouth-blown vase and vase/lantern. Forms appear to expand and contract rhythmically across the collection as close attention is paid to line, scale and equilibrium. The neck of each piece slants inwards or outwards, giving choice when arranging flowers, foliage and single blooms.
