## Using our interactive features

Our catalogue makes time-consuming browsing and searching a thing of the past. This tool allows you to search for information simply and quickly, just as you do online.

- 1. Contents:** Click on any of the images on page 2/3 or of your chosen category — for example: knives, storage, sharpening, care, shears, or accessories — and you will be immediately taken there.
- 2. Index:** Find the products you want even faster: simply click on the page number next to your desired item in the index at the back.

### WORLDWIDE DELIVERY REGIONS

At the bottom of the product pages is an “Availability” field, which shows where WÜSTHOF is available.

Corresponding numbers are listed next to each product indicating the global region of availability.

## WÜSTHOF Steel

### Our formula for long-lasting sharpness

When you choose a WÜSTHOF knife, you can be confident you have selected something special. Each forged blade is formed from one single piece of WÜSTHOF Steel and hardened to 58 Rockwell during the manufacturing process.

Right from the start, we create the basis for the most important features of a premium knife – exceptional sharpness, enduring robustness and a blade that can be precisely resharpened when necessary.

#### OUR FORMULA FOR OPTIMUM SHARPNESS: X50 CR MOV 15

- |           |                 |   |
|-----------|-----------------|---|
| <b>X</b>  | Stainless steel | stainless steel: the basic material of our knives   |
| <b>50</b> | Carbon          | 0.5% of our alloy is carbon, giving additional hardness to the blade and allowing for its exceptional sharpness |
| <b>Cr</b> | Chromium        | this additional element ensures a particularly high rust resistance in the finished knife                       |
| <b>Mo</b> | Molybdenum      | an element that supports the strength and corrosion resistance of our knives                                    |
| <b>V</b>  | Vanadium        | this element increases strength and toughness to reduce wear and tear on the blades                             |
| <b>15</b> | Chromium        | 15% of our alloy is chromium  |

# Forged knives

## Precision tools for discerning chefs

Precision-forged WÜSTHOF knives enjoy particularly high recognition worldwide. Aspiring home cooks and seasoned professionals alike value their premium quality and exceptional sharpness.

We manufacture each one of our forged knives from a single piece of WÜSTHOF Steel, and this is showed by the bolster – the thicker section between the blade and the handle. In our cutting-edge production process, a total of at least 54 manufacturing steps are carried out with a combination of high-precision robot technology and true craftsmanship.

First, glowing steel at around 1,250° Celsius is compressed and shaped in our forge. With the powerful compression and the subsequent unique WÜSTHOF hardening process, the steel is thickened and rust-proofed, gaining toughness and hardness. Next, the blank is run through multi-level forging and buffering techniques. It receives a final polish and a sealing of the blade surface before the handle is assembled.

Our forged WÜSTHOF knives – with their finely tuned craftsmanship, ergonomically designed handles and perfectly balanced bolster weight – sit securely in your hand. We consider this comfortable, safe grip ideal for exceptional food preparation and plating.

Our uncompromising quality is carefully monitored throughout the entire production process, ensuring consistency and reliability in our knives – each one made for the perfect WÜSTHOF moment.

# Non-forged knives

## Light helpers for effortless work

They are lighter, but just as sharp. They are not forged, but are just as accurate. Non-forged WÜSTHOF knives are characterised by agile blades and superior quality.

Since the forging process does not apply, the manufacturing process – consisting of around 25 steps – is less expensive than that of a forged kitchen knife. Ten or more quality controls guarantee reliable and precise performance.

Our blade blanks are cut by precision laser from a high-quality steel plate. They then go through the same production process as the forged knives, from hardening, grinding and buffering, to handle assembly and finishing touches.

The reduced weight and ergonomically shaped handle allow every cook to work precisely and effortlessly. In addition, our non-forged knives, with their WÜSTHOF Steel blades, resharpen just as easily as our forged knives. These tools prove their worth every day, retaining sharpness and quality even with constant use.

Our agile knives are not only treasured by home cooks, but also gain high praise in professional kitchens, bakeries and butchers' shops. All in all, a multitude of outstanding features underscore the extraordinary price-to-performance ratio of our non-forged WÜSTHOF knife series.

# The forged Chef's knife

Outstanding features make every movement a true pleasure

## BLADE SURFACE

The blade is forged from one piece of WÜSTHOF Steel and hardened to 58 Rockwell. This makes our knives extremely sharp, robust, long lasting and easy to resharpen.

## BLADE SPINE

Ground perfectly smooth – ‘burred’, in technical terms – a significant sign of quality. It is broader than the cutting edge and suitable for cracking shellfish or nuts.

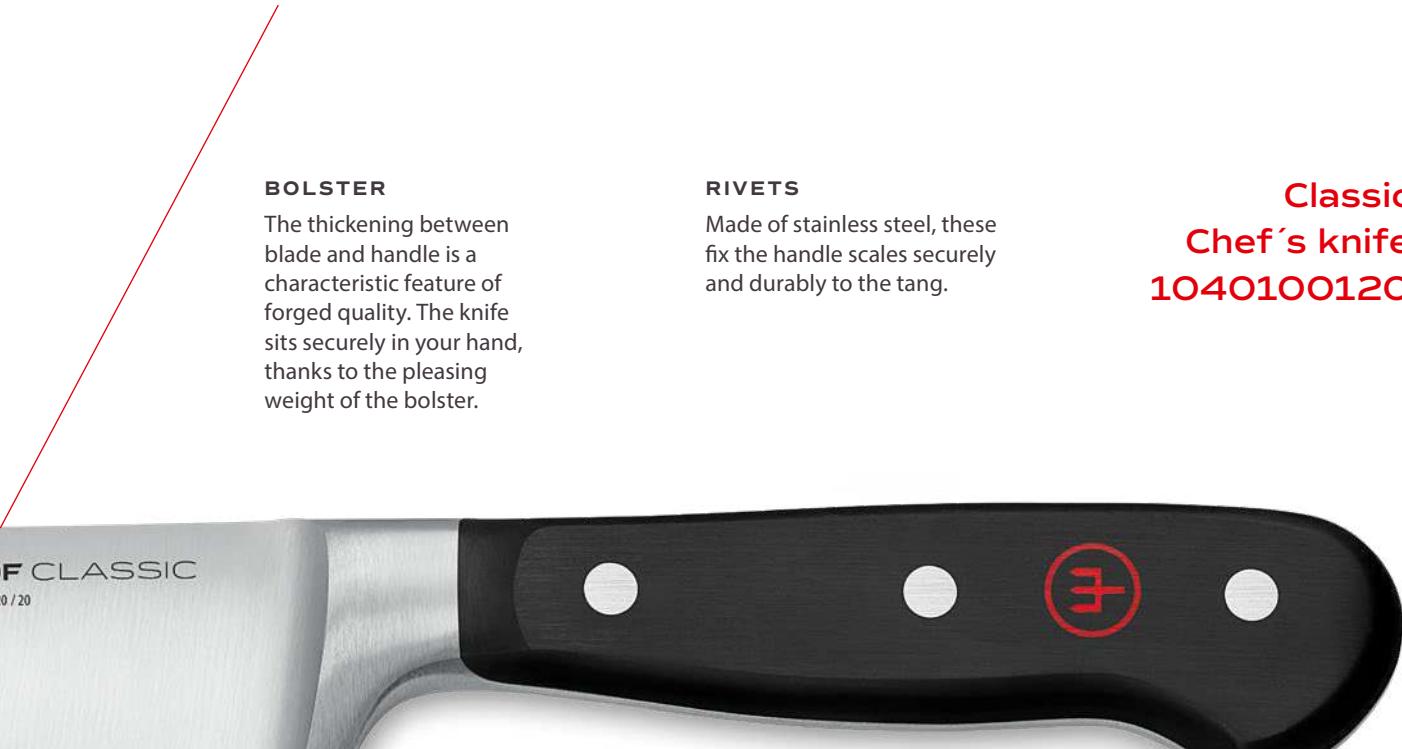

## CUTTING ANGLE

The sharpness of the blade depends on the cutting angle of the WÜSTHOF sharpening process. The smaller the angle, the sharper the blade – for most kitchen knives this is about 29°. WÜSTHOF kitchen knives are usually ground on both sides, resulting in an angle of 14.5° on each side.

## GRIND

### (OR CUTTING EDGE)

Manufactured using our special WÜSTHOF sharpening process, this allows for long-lasting, clean and precise movements. The point is used for fine incisions. The light curve is perfect for mincing herbs. Soft vegetables are cut using the front part of the blade. Hard foods are effortlessly chopped using the rear part where the transfer of weight is greatest, reducing your effort.

#### BOLSTER

The thickening between blade and handle is a characteristic feature of forged quality. The knife sits securely in your hand, thanks to the pleasing weight of the bolster.

#### RIVETS

Made of stainless steel, these fix the handle scales securely and durably to the tang.

**Classic  
Chef's knife  
1040100120**

#### BIT

The bit is the rear part of the blade, and, if the knife has a full bolster, it also protects your fingers while working.

#### TANG

An extension of the blade through the knife handle, the tang gives the knife its stability. Together with the bolster, it ensures balance and effortless work.

#### HAND GUARD

The handle curves slightly in your hand so that it doesn't slip, ensuring your knife is always held securely.

## Our unsurpassable knife for perfect control

### UNIQUE DESIGN MEETS EXCEPTIONAL PERFORMANCE

The ultra-hard diamond-like carbon (DLC) coating allows the blade to glide through any food with uncompromising ease, thanks to its moisture-beading, water-repellent properties. The non-slip Hexagon Power Grip guarantees extreme control. Striking design and unsurpassable function: Performer will captivate you for a lifetime.

WÜSTHOF stands for blades – for those moments when your knife slides effortlessly through fresh food.

WÜSTHOF PERFORMER

11

## Performer Chef's knife

Surface hardness:  
104 Rockwell

Pioneering blade technology  
with diamond-like-carbon  
(DLC) coating

Ergonomic handle  
ensures safe work

Blade is heat resistant  
and food safe

Full bolster – the thickening  
between blade and handle –  
ensures finger protection

Innovative handle  
construction with offset non-  
slip honeycomb structure

#### HAND GUARD

The knife handle sits perfectly in your palm, curving into your hand to prevent slipping.

#### FULL BOLSTER

The full bolster reliably protects your fingers when preparing and plating fresh food; the balance makes agile and precise work easier.

#### BLADE

The ultra-hard DLC coating allows the blade to glide through any food with uncompromising ease thanks to its moisture-beading, water-repellent properties.

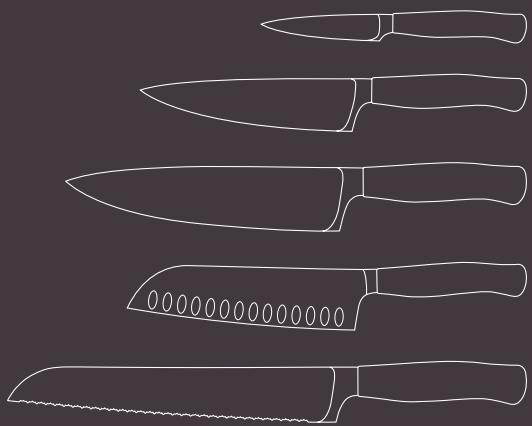

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with a unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as melons. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

## Our soulful knife bringing a special extra to your routine

### WÜSTHOF AMICI - ENJOY SHARING

Inspired by memories of family and friends gathering al fresco in the Italian countryside, WÜSTHOF Amici celebrates a simpler life. It is a life connected to nature, love of good food, and affection for all we invite to the table.

This sculpted, forged blade is paired with a uniquely variegated olive wood handle – no two are the same. Amici brings together a gracious Mediterranean lifestyle and old-world craftsmanship, creating a soulful reminder to cherish life's precious moments.  
Benvenuti Amici!

## Amici Chef's knife

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with a unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as melons. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

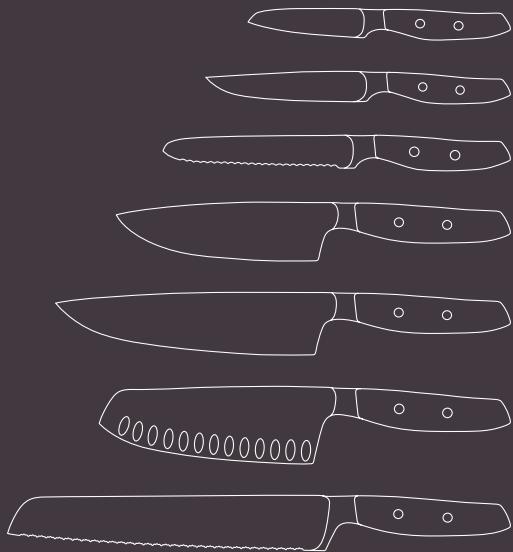

#### FULL BOLSTER

The full bolster reliably protects the fingers when preparing and plating fresh food, creating balance to make agile and precise work easier.

#### FULL TANG

As an extension of the blade, the tang gives the forged knife reliable stability. It also ensures good balance by acting as a counterweight to the blade.

## Forged luxury for unique knives

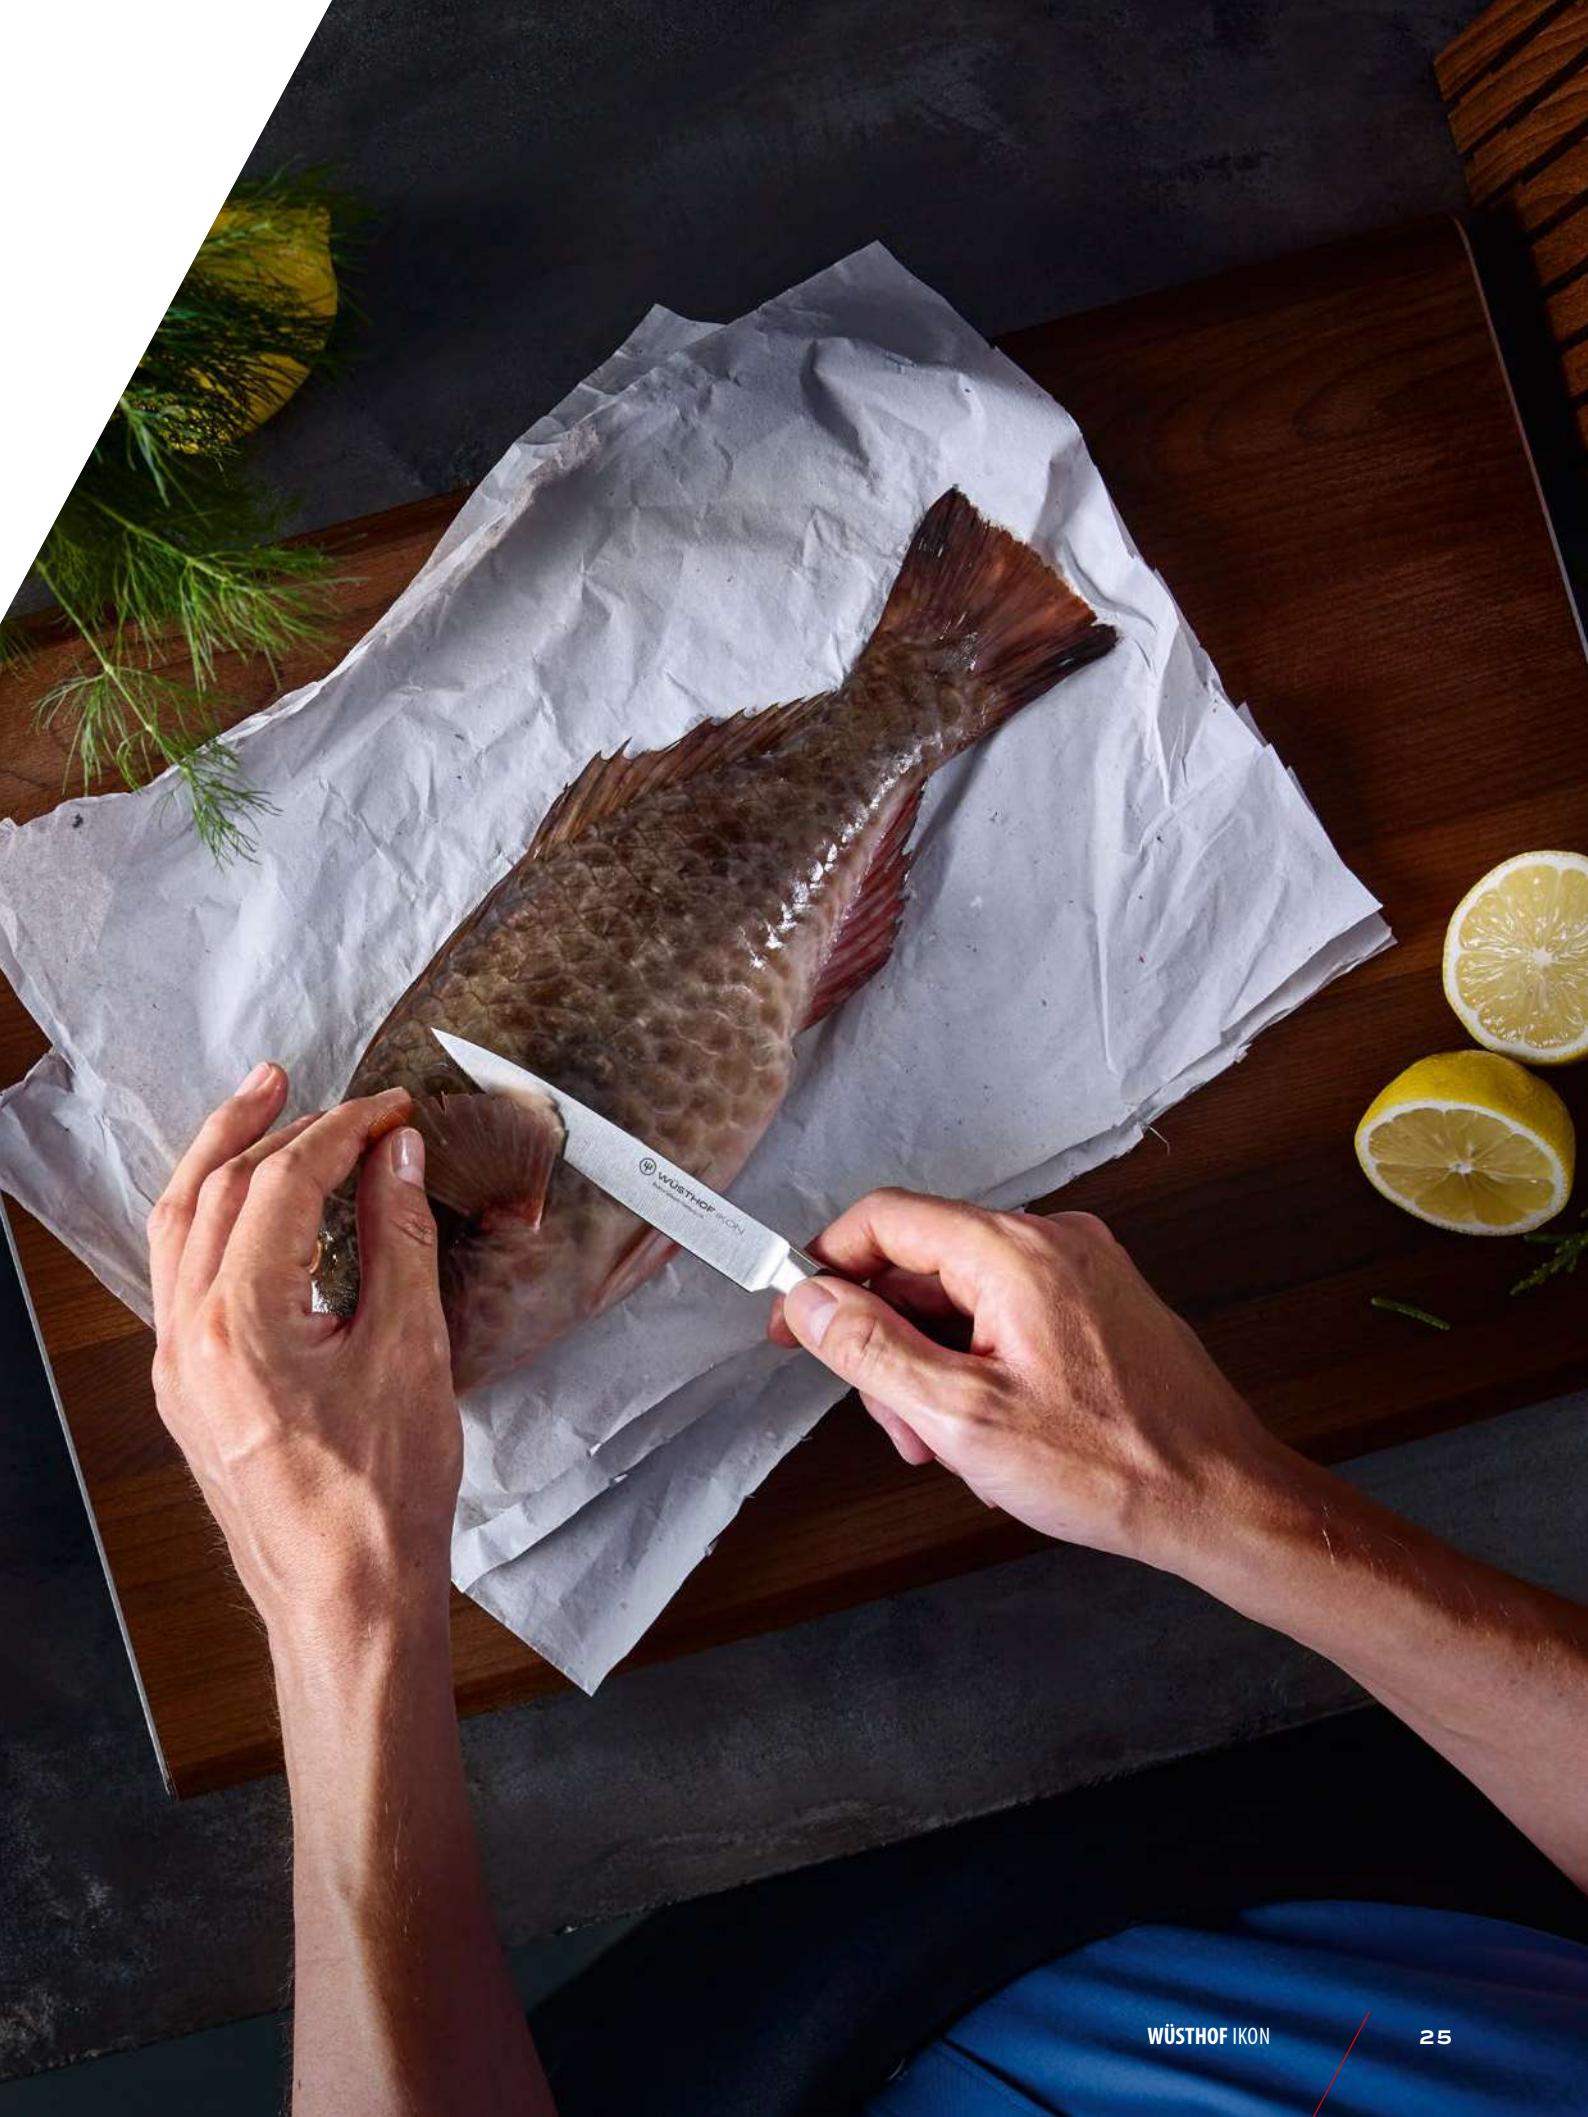

### SHARP BLADES AND PREMIUM-QUALITY WOOD

With their unique features, the knives in the Ikon series are a joy for the senses. The handles, made from exquisite African Blackwood, are distinguished by their individualised textures, making each knife a bespoke eye-catcher.

These handles are a delight to hold, with their ergonomic shape and natural, comfortable feel. The double bolster ensures optimum balance and effortless work, even when using the knife over longer periods of time.

The blades are forged from high-quality WÜSTHOF Steel and characterised by their robustness and durability. The final edge work, carried out by hand by our experienced WÜSTHOF specialists, ensures extreme sharpness, making every movement a pleasure.

## Ikon Chef's knife

Forged from one piece  
of WÜSTHOF Steel

Balanced using double  
bolster design

Full tang

Grinding angle 29°,  
final buffing by hand

Handle made from sustainably  
sourced African Blackwood

#### DOUBLE BOLSTER DESIGN

Balance and ergonomics – this special design with a double bolster ensures balanced handling, so the knife sits comfortably in your hand and guarantees effortless chopping.

#### HANDLE

The handles, made from African Blackwood, are permanently riveted and seamlessly assembled. This extremely dense wood is exceptionally hygienic and originates from sustainable cultivation.

#### HALF BOLSTER

The knife weighs less thanks to its slim bolster design, making work effortless. In addition, the design allows the entire length of the blade to be used and resharpened.

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

#### PEELING KNIFE

This handy knife with a short, curved edge is especially well suited for cleaning and peeling round fruits and vegetables. Valuable vitamins are preserved thanks to the precise blade, also reducing food waste.

## Our homage over 200 years of WÜSTHOF knife-making tradition

### A MODERN POWERHOUSE FOR TRADITIONAL FOOD FANS

With handles made from smoked oak, attractively designed brass rivets and steel hardened specifically for the blades, our Crafter series is the powerful result of more than two hundred years of knife production at WÜSTHOF.

As the name 'Crafter' suggests, these are robust work knives. They are made for exceptional food fans: dynamic workers who aren't shy of hard work, but who can also appreciate the stylish, rustic aesthetic of this high-quality knife.

## Crafter Chef's knife

Forged from one piece  
of WÜSTHOF Steel

Traditional  
brass rivets

Authentic  
trident branding

Grinding angle 29° /  
final buffing by hand

Handle scales made  
from smoked oak

Full tang

#### HAND GUARD

The ergonomic knife handle sits perfectly in your palm, curving into your hand to prevent slipping. The robust handle scales are secured with traditional brass rivets.

#### HANDLE

The handle is made of smoked oak. The unique grain of the wood gives the knife unmistakable character, further enhanced by the branded logo.

#### FULL BOLSTER

The full bolster reliably protects the fingers when preparing and plating fresh food, creating balance to make agile and precise work easier.

#### HALF BOLSTER

The knife weighs less thanks to the slim bolster design, making work effortless. The design also allows the entire blade to be used and resharpened.

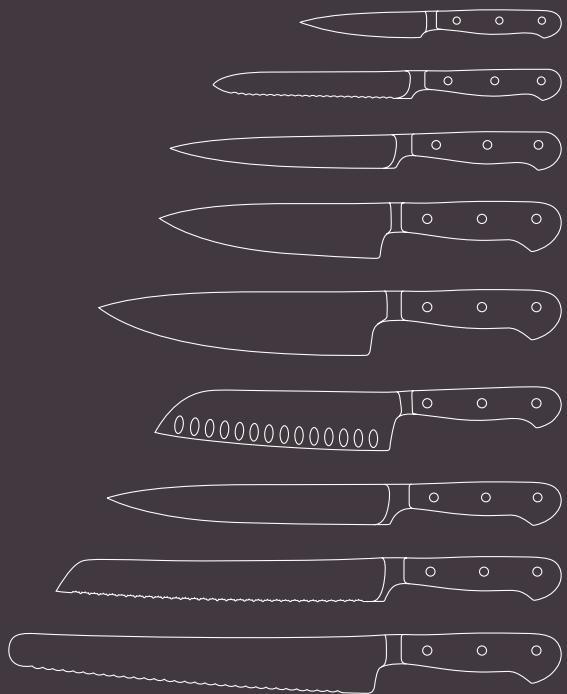

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with a unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as melons. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

#### FULL TANG

As an extension of the blade, the tang gives the forged knife reliable stability. It also ensures good balance by acting as a counterweight to the blade.

## Extreme precision with perfect ergonomics

### ELEGANT, AGILE AND ROBUST

Our Classic Ikon series combines a timeless design with perfect ergonomics, excellent balance and an extremely sharp blade.

Thanks to the special double bolster with the additional forged thickening at the end of handle, the knife remains well balanced with every movement. The black handle scales are made from a special synthetic material, carefully shaped to be comfortable to hold. The handle itself is durably riveted, making the knife hygienic and easy to care for.

Forged from one piece  
of WÜSTHOF Steel

Half bolster design for  
optimal weight balance

Full tang

Grinding angle 29°/  
final buffering by hand

Triple riveted

Double bolster with high-quality logo etching

#### DOUBLE BOLSTER DESIGN

The special design with a double bolster ensures balanced handling, so the knife sits comfortably in your hand and guarantees effortless chopping.

#### SCALLOPED EDGE

The scalloped edge, curving outwards, produces a clean slice and is well suited for large fruits, vegetables or roasts. With its broad, long blade, it also works extremely well as a bread or cake knife.

#### HALF BOLSTER

The knife weighs less thanks to its slim bolster, making handling simpler. The design also allows the entire length of the blade to be used and resharpened.

#### PEELING KNIFE

This handy knife with a short, curved edge is especially well suited for cleaning and peeling round fruits and vegetables.

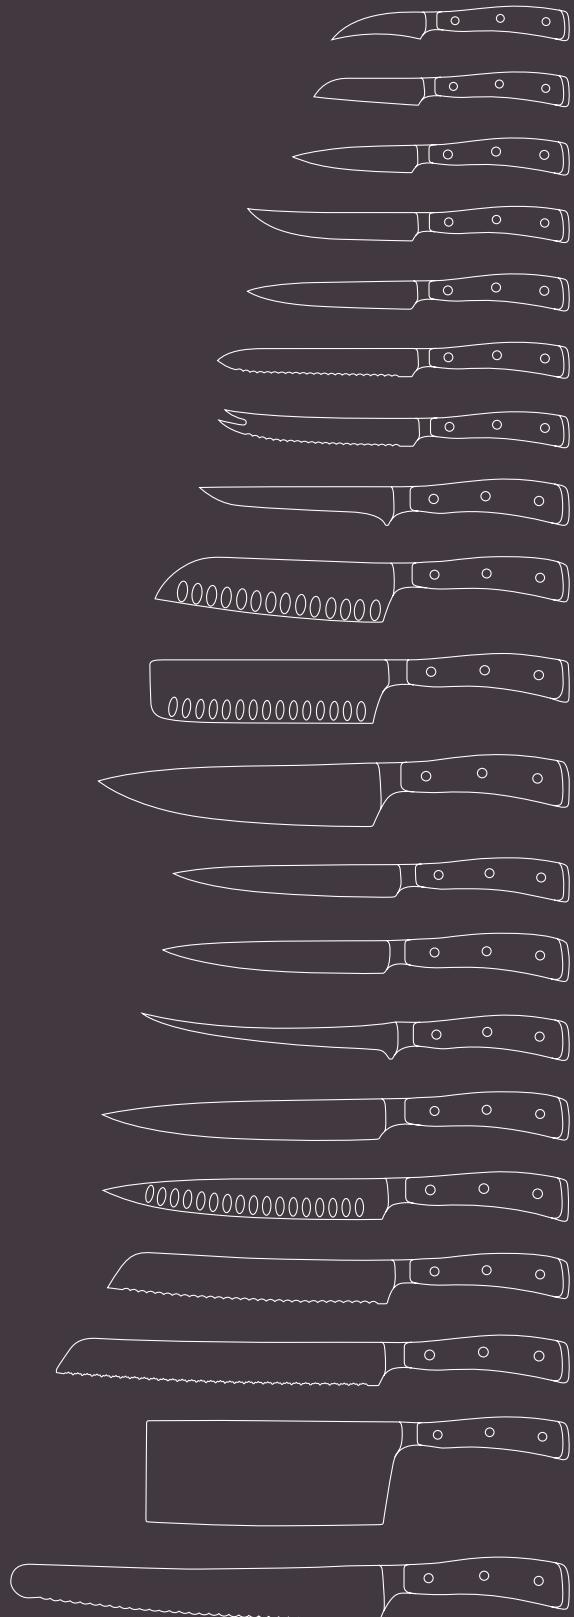

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with a unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as melons. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

## Our bright alternative

### For radiant kitchen moments

#### ELEGANT DESIGN. OUTSTANDING FUNCTIONALITY.

With their cream-colored handles, the Classic Ikon Crème series are not just special in the knife market – they are showstoppers in any kitchen. The handles, firmly triple-riveted and made from a special synthetic material, meet the highest hygiene standards.

Thanks to the innovative bolster design and the smooth, ergonomic style of the handle, the knife sits perfectly in your hand. The blades are extremely sharp and remain so for an exceptionally long time. The special workmanship that has gone into these knives makes chopping, slicing and portioning a delight.

## Classic Ikon Chef's knife

Forged from one piece  
of WÜSTHOF Steel

Half bolster design for  
optimal weight balance

Full tang

Grinding angle 29°/  
final buffing by hand

Triple riveted

Double bolster with high-quality logo etching

#### DOUBLE BOLSTER DESIGN

Balance and ergonomics – the special design with a double bolster ensures balanced handling, so the knife sits comfortably in your hand and guarantees effortless chopping.

#### PEELING KNIFE

This handy knife with a short, curved edge is especially well suited for cleaning and peeling round fruits and vegetables. Valuable vitamins are preserved thanks to the precise blade, also reducing food waste.

#### HALF BOLSTER

The knife weighs less thanks to its slim bolster design, making your work effortless. In addition, the design allows the entire length of the blade to be used and resharpened.

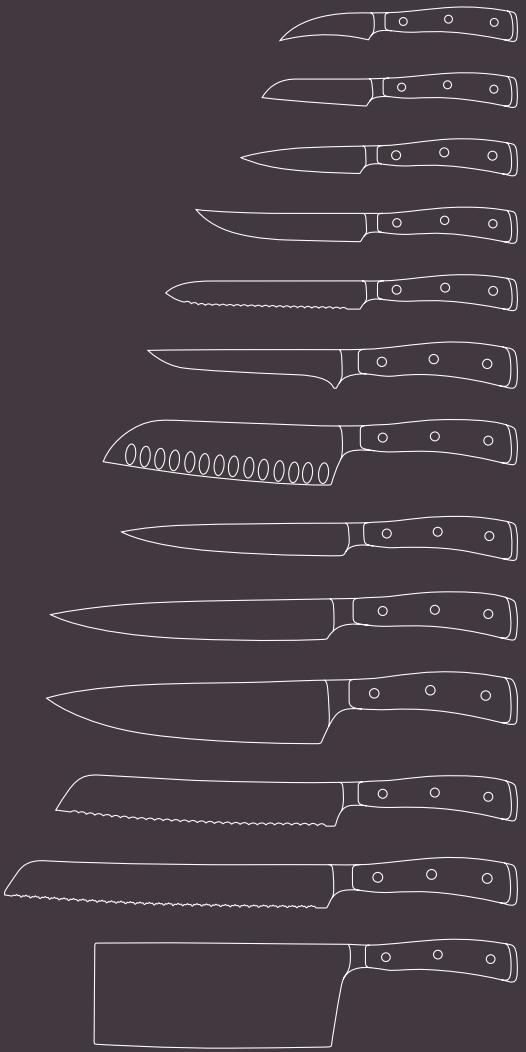

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

#### HANDLE HEEL WITH LOGO

The ergonomic handle ensures perfect grip. It is also riveted and features an elegantly etched trident logo.

## The Original

Number one in forged  
kitchen knives

### LARGEST SELECTION. EXCEPTIONAL QUALITY.

Our Classic Series includes the largest variety of blade shapes in the world, with blade lengths ranging from 7 to 30 cm (2.75 to 12 inches) and more than 54 distinct blade shapes. With its clear-cut design and straightforward handling, the series offers the perfect tools for professional chefs and home cooks alike.

Quality always comes first. Each Classic knife is expertly crafted through 55 manufacturing steps with over 20 uncompromising quality controls. The blades are forged from a single piece of WÜSTHOF Steel. They are especially sharp, robust and long-lasting, thanks to the WÜSTHOF sharpening process.

WÜSTHOF CLASSIC

## Classic Chef's knife

Forged from one piece  
of WÜSTHOF steel

Safe work thanks  
to a full bolster

Triple riveted

Grinding angle 29° /  
final buffering by hand

Full tang

Hand guard

#### HAND GUARD

The knife handle sits perfectly in your palm, curving into your hand to prevent slipping. The robust handle scales are secured with stainless steel rivets and seamlessly assembled.

#### FULL TANG

As an extension of the blade, the tang gives the knife reliable stability. In addition, it ensures good balance by acting as a counterweight to the blade.

#### FULL BOLSTER

The full bolster reliably protects the fingers when preparing and plating fresh food, creating balance to make agile and precise work easier.

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

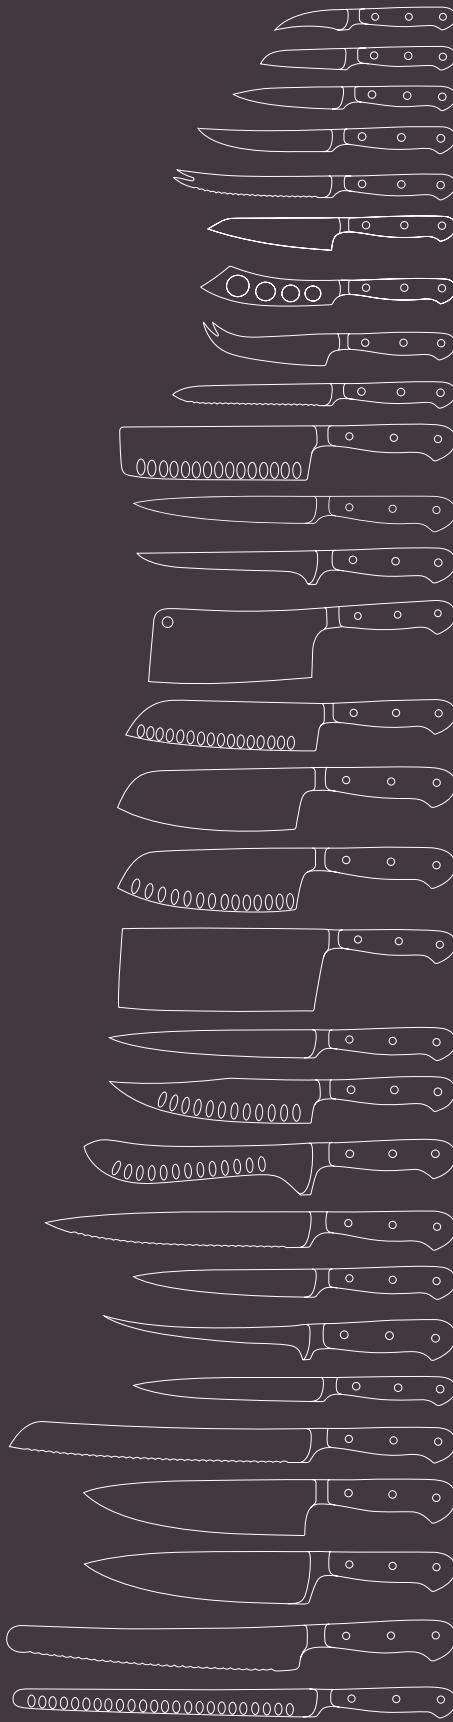

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with a unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as melons. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

#### BUTCHER KNIFE

Our distinctive new knife is perfect for portioning meat or effortlessly carving large fruits and vegetables. The special design, forged from steel, makes it an extraordinary work of art.

KNIFE BLOCK

## The Original in white – for design purists

### CLASSIC. WHITE. EXQUISITE.

With their white handles, our versatile WÜSTHOF Classic knives give your kitchen that special something. The white version offers everything that food fans and professional chefs have come to expect from our tried-and-tested Classic series. Knives that remain sharp for longer and sit comfortably in your hand, making every movement effortless and precise. Classic, since 1886

We use premium materials and pay loving attention to detail. Combining elegance with superior quality, these knives are reliable companions in the preparation and plating of fresh food and also ideal for design purists. Manufactured entirely in Solingen, Germany.

## Classic Chef's knife

Forged from one piece  
of WÜSTHOF steel

Safe work thanks  
to the full bolster

Triple riveted

Grind angle 29° /  
final buffering by hand

Full tang

Hand guard

#### HAND GUARD

The knife handle sits well in your palm and curves into the hand to prevent slipping. The robust handle scales are secured with stainless steel rivets and processed seamlessly.

#### FULL BOLSTER

The full bolster reliably protects your fingers when preparing and plating fresh food; the balance makes agile and precise work easier.

#### FULL TANG

As an extension of the blade, the tang gives the knife reliable stability. In addition, it ensures good balance by acting as a counterweight to the blade.

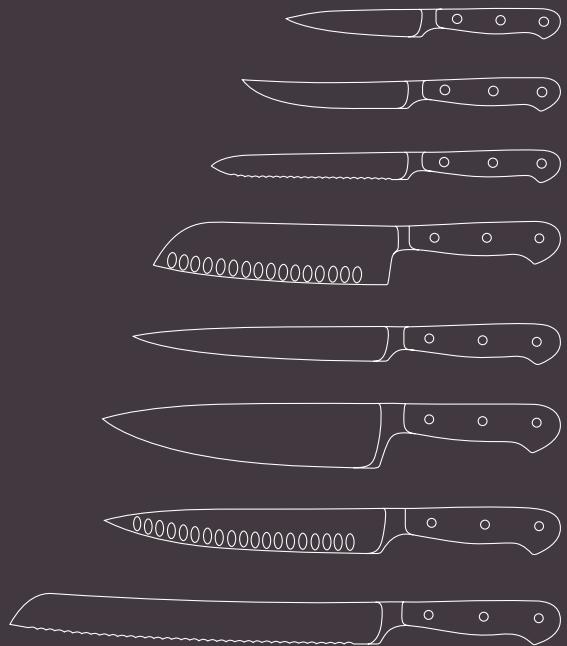

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

#### PRECISION DOUBLE-SERRATED EDGE

The bread knife with the unique double-serrated edge cuts hard crusts just as easily as soft bread or large fruits, such as pumpkin. From the very first time you use it, you can feel the difference compared to traditional serrated edges.

## Sustainable tools

Ideal for environmentally aware trendsetters

### HEALTHY, HOMEGROWN, FRESHLY PREPARED FOOD

Urban Farmer combines the natural beauty of rustic crafting tools with the high-tech precision of knives made using cutting-edge materials and techniques. The blade is made from WÜSTHOF Steel with a high carbon content. Its long-lasting sharpness is ensured by a Rockwell hardness of 56, while the solid tang gives it superior edge stability.

Made from sustainably grown and heat-treated beech, each handle is extremely robust. Combined with the non-slip bolster, it provides an exceptionally secure grip. These knives are well balanced, easy to use and efficient. They are ideal for chopping vegetables and slicing meat, or, as with our unique pruning knife, for picking vegetables, fruit or herbs straight from your garden.

## Urban Farmer Chef's knife

Blades cut with a precision laser

Non-slip, black bolster for safe work

Smooth-to-touch handle made from smoked beech

Perfectly suited for harvesting herbs and vegetables

For use indoors and outdoors

#### HANDLE

The handle, made from smoked beech, captivates with its natural texture and smooth feel. As with all high-quality kitchen tools, this knife should be washed by hand.

#### PRUNING KNIFE

With its distinctive curved tip, this unique blade shape is perfectly suited for harvesting, prepping and peeling fruit and smaller vegetables.

#### NON-SLIP BOLSTER

Always maintain a firm hold of your knife. The non-slip bolster is made from a special high-performance synthetic material that offers a completely secure grip, even when working with wet hands.

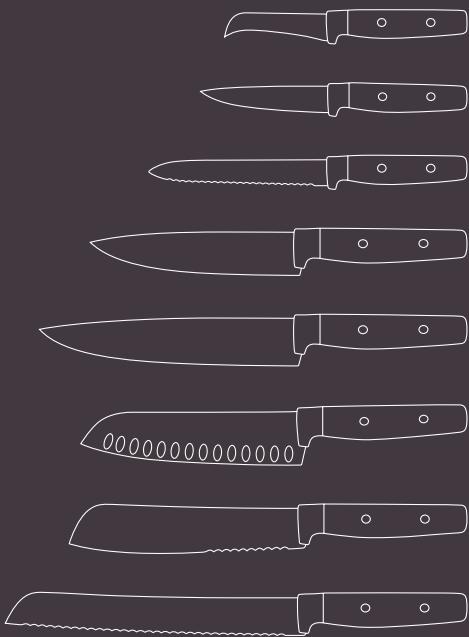

#### SERRATED EDGE

Knives with a robust serrated edge effortlessly slice tomatoes, and glide easily through most kinds of bread or rolls, vegetables, soft fruits with hard skins, and cured (hard) sausages.

#### MACHETE

Whether you're harvesting large vegetables and entire lettuce heads, digging planting holes, or tending to potatoes, this powerful machete is the ultimate tool in the garden. With its combination of serrated and smooth edge, it is also the perfect tool for prepping vegetables such as cabbage and pumpkin.

## Light – Sharp – Versatile

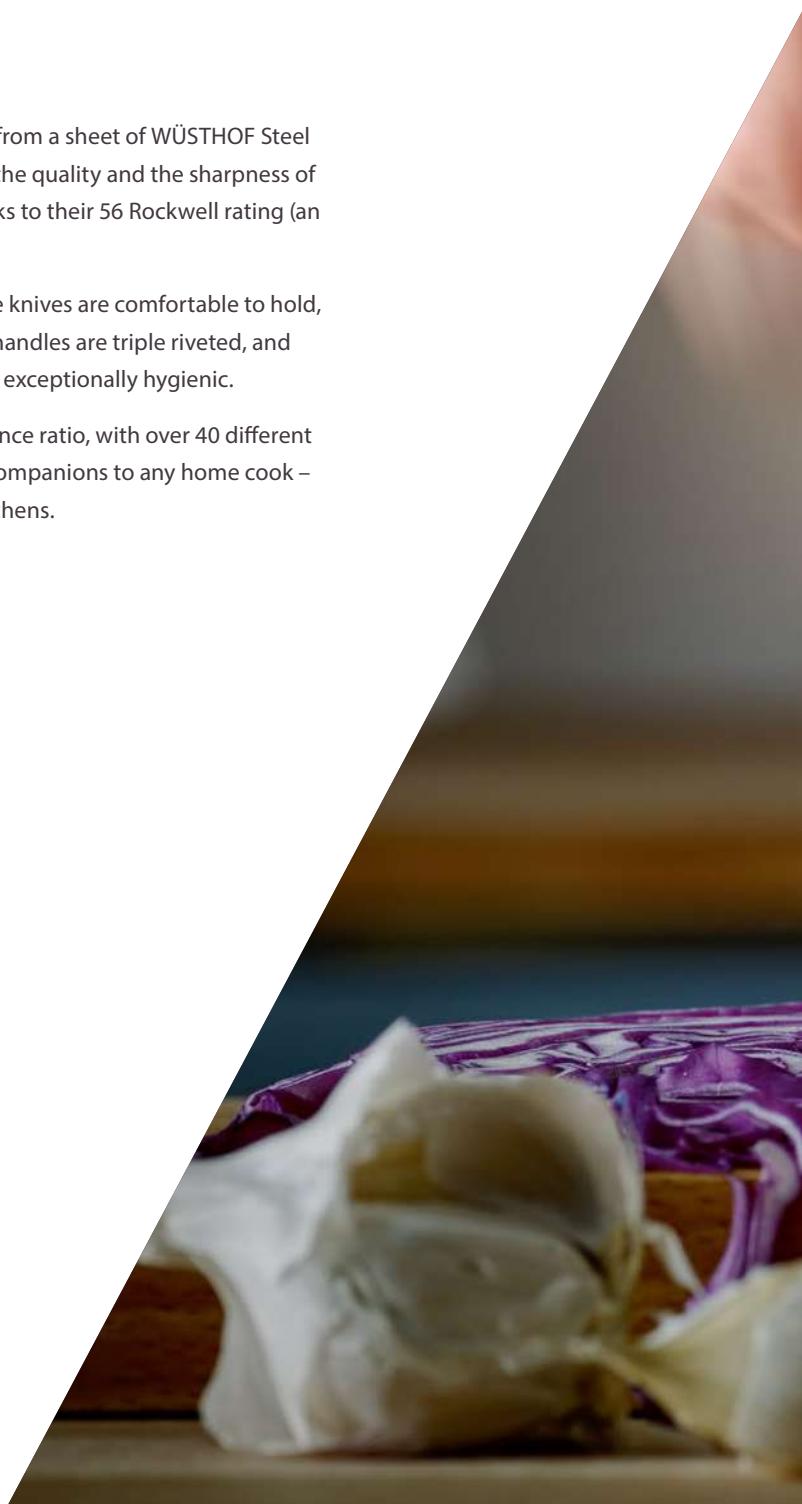

The perfect series for getting started in your kitchen

### AN AGILE ALL-PURPOSE KNIFE

A precision laser cuts the blade of each Gourmet knife from a sheet of WÜSTHOF Steel before it goes through 35 manufacturing stages. Both the quality and the sharpness of these knives are comparable to our forged knives thanks to their 56 Rockwell rating (an extremely high degree of hardness).

Due to their lighter weight and unique ergonomics, the knives are comfortable to hold, well balanced and easy on your hands and wrists. The handles are triple riveted, and formed from a special synthetic material, making them exceptionally hygienic.

The Gourmet series has an excellent price-to-performance ratio, with over 40 different items at a range of costs. These knives serve as trusty companions to any home cook – and as reliable, essential equipment in professional kitchens.

## Gourmet Chef's knife

Blades cut using precision lasers

Seamlessly molded handle

Triple riveted

Grinding angle 29° / final buffing by hand

Light weight for agile handling

Full tang

Hand guard

#### HAND GUARD

The knife handle sits perfectly in your palm, curving into your hand to prevent slipping. The robust handle scales are secured with stainless steel rivets and seamlessly assembled.

#### FULL TANG

As an extension of the blade, the tang gives the knife reliable stability. It ensures good balance by acting as a counterweight to the blade.

#### TOMATO KNIFE

The fine, serrated edge of the tomato knife cuts smoothly through firm tomato skin, while the forked tip reliably picks up every slice. The knife is also well suited for slicing cheese and fruit.

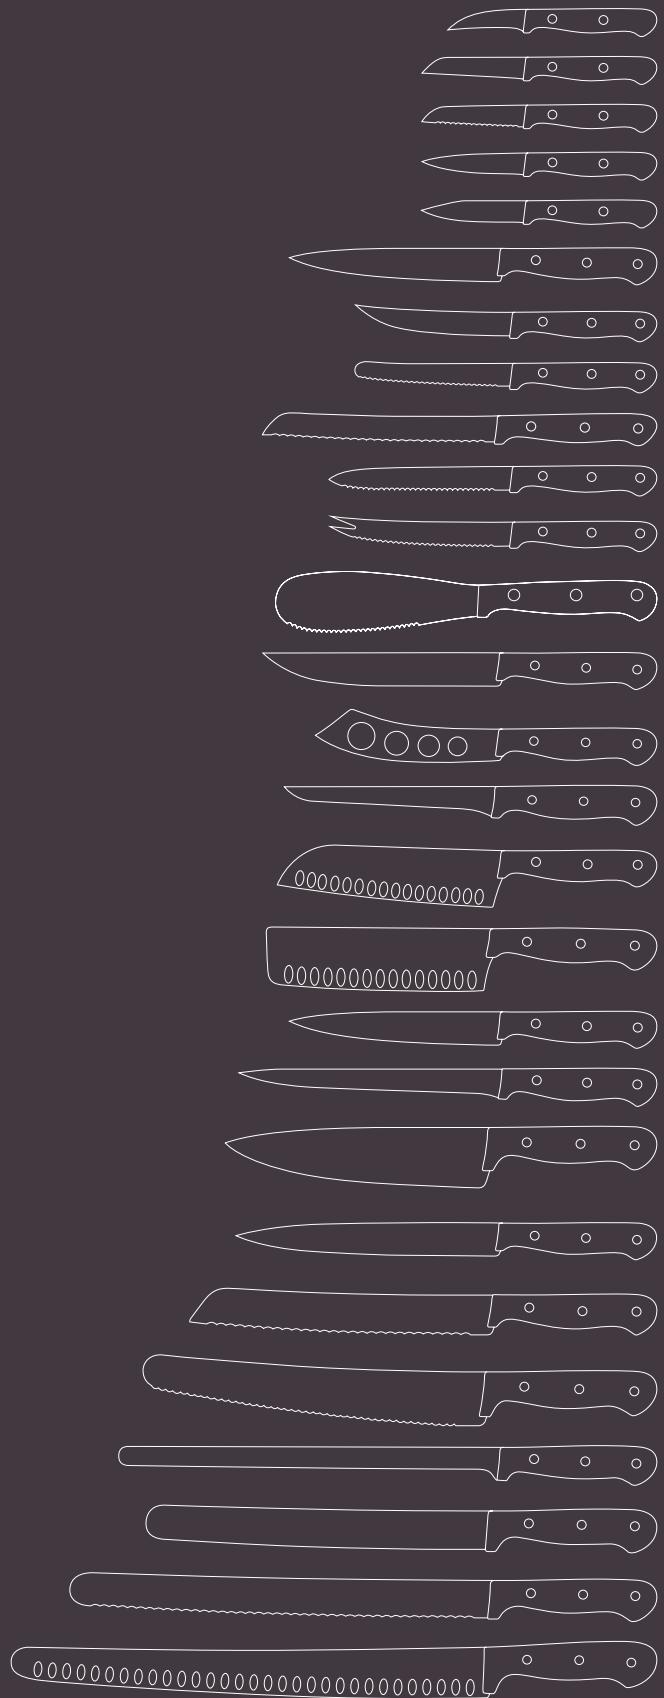

#### SCALLOPED EDGE

The scalloped edge produces a clean cut and is well suited for large fruits, vegetables or roasts. With its broad, long blade, it also works extremely well as a bread or cake knife.

#### HOLLOW EDGE

Small air pockets are created by the dimples or indentations on the blade. These have a positive effect so that thin slices and soft, sticky food items are easier to remove from the blade.

## Clever designs

### Blades that stay sharp for longer

#### PROFESSIONAL KNIFE STORAGE FOR RELIABLE BLADE PROTECTION

Knives are the most important tools in your kitchen, and every food fan knows that only a sharp knife is a safe knife.

Optimum storage allows blades to remain sharp for longer. For this reason, we offer a wide range of storage solutions. Our knife blocks, magnetic bars, in-drawer knife organisers, blade guards and knife cases all offer effective protection from scratches and damage.

With our designer knife blocks, your knives are always within easy reach. These storage solutions are also minimalist and attractive, enhancing the unique style of your kitchen.

WÜSTHOF STORAGE

## Effortless preparation

### Consistently sharpened tools

#### ONLY A SHARP BLADE IS A SAFE BLADE

Keeping your blade edge as sharp as possible at all times is very important for safe knife usage. A blunt blade encourages excess force, potentially leading to slippages or injuries.

Even blades of exceptional quality lose their sharpness over time through regular use, contact with hard food items, or work on cutting surfaces that are too hard. Our honing and sharpening solutions help knives regain their full sharpness, thus ensuring safe and efficient knife movements and relaxed kitchen moments.

## Easy Edge

# A professional cutting board is the best way to keep knives sharp

## **KNIVES STAY SHARP FOR LONGER, THANKS TO A SURFACE THAT PROTECTS YOUR BLADES**

With good knives, preparing and plating fresh food is simple and enjoyable, from chopping vegetables to carving meat, mincing herbs, and slicing ripe fruit.

A key factor here is sharp blades! To keep your knives sharp for longer, we recommend professional-style cutting boards made from high-quality wood or a specialized, resilient synthetic material. These surfaces are gentle on your blade, thus preventing damage in the long term. This means your knife requires less sharpening overall, so your movements can be precise, clean, and safe.

Don't forget: a high-quality cutting board is also the perfect vehicle for plating and serving food in style.

## CARE INSTRUCTIONS FOR ALL WOOD CUTTING BOARDS:

Never wash in the dishwasher. To care for your cutting boards, you can oil them lightly with cooking oil when dry from time to time. Apply using a cotton cloth. Then allow it to soak in and dry over night. This way you can maintain the moisture barrier.

**CARE INSTRUCTIONS FOR ALL WOOD CUTTING BOARDS:**

Never wash in the dishwasher. To care for your cutting boards, you can oil them lightly with cooking oil when dry from time to time. Apply using a cotton cloth. Then allow it to soak in and dry over night. This way you can maintain the moisture barrier.

natural finish - no artificial coating

# A WÜSTHOF knife

## Uncompromising quality

### IN WÜSTHOF QUALITY ASSURANCE, ONLY PERFECTION COUNTS

You can be certain that each knife will only leave our factory after it has proven its ability in our sharpness test and demonstrated its excellent quality in our final checks: our promise and our guarantee!

During production, all knives go through multiple, repeated quality controls – in the Classic Series, for example, there are a total of 25 quality control points. This includes optical measuring stations which measure the blades within seconds at 1000 check-points, the uncompromising blade check, the precise check of cutting geometry with the most modern laser technology, and the conclusive sharpness test of each individual knife. If the strict quality demands are not met, the knife will not be allowed to proceed to the next stage in the process.

In quality control, as in production, we place our trust in the perfect symbiosis of man and machine. While computer-controlled, technical solutions are accurate and cannot be corrupted, only a person, with a trained eye can give the final approval for the perfect quality that is a WÜSTHOF knife.

WÜSTHOF QUALITY
